## REPORT OF MANAGEMENT

Management of Bao Viet Securities Joint Stock Company ("the Company") is pleased to present this report and the financial safety ratio report of the Company as at 31 December 2025.

### MANAGEMENT'S RESPONSIBILITY IN RESPECT OF THE FINANCIAL SAFETY RATIO REPORT

Management confirmed that it has complied with the requirements of Circular No. 91/2020/TT-BTC dated 13 November 2020 issued by the Ministry of Finance on financial safety ratio and remedies applicable to securities companies that fail to meet the stipulated financial safety ratio ("Circular 91"), Circular No. 102/2025/TT-BTC, dated 29 October 2025 on amendments and supplements to articles of Circular No. 91/2020/TT-BTC on financial safety ratio and remedies applicable to securities companies that fail to meet the stipulated financial safety ratio ("Circular 102") and Note 2.1 to the financial safety ratio report in the preparation and presentation of the financial safety ratio report as at 31 December 2025.

### STATEMENT BY MANAGEMENT

Management does hereby state that, in its opinion, the accompanying financial safety ratio report is prepared in accordance with the requirements of Circular 91, Circular 102, and Note 2.1 of the financial safety ratio report.

On behalf of Management:

Mr. Nhu Dinh Hoa  
Chief Executive Officer

## INDEPENDENT AUDITORS' REPORT

To: **The Shareholders of  
Bao Viet Securities Joint Stock Company**

We have audited the accompanying financial safety ratio report of Bao Viet Securities Joint Stock Company ("the Company") as at 31 December 2025 as prepared on 26 March 2026 and set out on pages 05 to 33. The financial safety ratio report has been prepared by the Company's management in accordance with the regulations under Circular No. 91/2020/TT-BTC dated 13 November 2020 issued by the Ministry of Finance on financial safety ratio and remedies applicable to securities companies that fail to meet the stipulated financial safety ratio ("Circular 91"), Circular No. 102/2025/TT-BTC, dated 29 October 2025 on amendments and supplements to articles of Circular No. 91/2020/TT-BTC on financial safety ratio and remedies applicable to securities companies that fail to meet the stipulated financial safety ratio ("Circular 102"), and Note 2.1 to the financial safety ratio report.

### **Management's responsibility**

Management is responsible for the preparation and presentation of the financial safety ratio report in accordance with Circular 91, Circular 102 and Note 2.1 to the accompanying financial safety ratio report, and for such internal control as the management determines is necessary to enable the preparation and presentation of the financial safety ratio report that is free from material misstatement, whether due to fraud or error.

### **Auditors' responsibility**

Our responsibility is to express an opinion on the financial safety ratio report based on our audit. We conducted our audit in accordance with Vietnamese Standards of Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial safety ratio report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial safety ratio report. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial safety ratio report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and presentation of the financial safety ratio report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of policies used as well as evaluating the overall presentation of the financial safety ratio report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### **Opinion**

In our opinion, the financial safety ratio report as at 31 December 2025 is prepared and presented, in all material respects, in accordance with Circular 91, Circular 102, and Note 2.1 to the financial safety ratio report.

11/01/2026

with confidence

**Basis of preparation**

Without modifying our opinion, we draw attention to Note 2.1 and Note 3 of the financial safety ratio report, which describes the applicable regulations and the summary of significant policies for the preparation of the financial safety ratio report. As also described in Note 2.2, the financial safety ratio report is prepared to comply with the regulations on the preparation and disclosure of the financial safety ratio report of the Company. As a result, this report may not be suitable for other purposes.

as at 31 December 2025

## 1. CORPORATE INFORMATION (continued)

### *Main features of operation of the Company* (continued)

#### *Investment restrictions*

The Company is required to comply with Article 28 of Circular No. 121/2020/TT-BTC dated 31 December 2020, providing guidance on the operation of securities companies by the Ministry of Finance. The current applicable practices on investment restrictions are as follows:

- ▶ A securities company is not allowed to purchase or contribute capital to invest in real estate, except for the purpose of using as head office, branches, and transaction offices directly serving the business activities of the securities company.
- ▶ A securities company may invest in real estate and fixed assets on the principle that the carrying value of the fixed assets and real estate should not exceed fifty percent (50%) of the total value of assets of the securities company.
- ▶ A securities company is not allowed to use more than seventy percent (70%) of its charter capital to invest in corporate bonds. A securities company, licensed to engage in proprietary trading, is allowed to trade listed bonds in accordance with relevant provisions on trading bonds.
- ▶ A securities company must not by itself, or authorize other organization or individuals to:
  - a. Invest in shares or contribute capital to companies that own more than fifty percent (50%) of the charter capital of the securities company, except for purchasing odd lots at the request of customers;
  - b. Make joint investments with an affiliated person of five percent (5%) or more in the charter capital of another securities company;
  - c. Invest more than twenty percent (20%) of the total outstanding shares or fund certificates of a listed organization;
  - d. Invest more than fifteen percent (15%) of the total outstanding shares or fund certificates of an unlisted organization, this provision shall not apply to member fund certificates, ETFs and open-ended funds;
  - e. Invest or contribute capital of more than ten percent (10%) of the total paid-up capital of a limited liability company or of a business project;
  - f. Invest more than fifteen percent (15%) of its owners' equity in a single organization or of a business project;
  - g. Invest more than seventy percent (70%) of its total owners' equity in shares, capital contributions and business projects, specifically invest more than twenty percent (20%) of its total owners' equity in unlisted shares, capital contributions and business projects.
- ▶ A securities company may establish or acquire a fund management company as a subsidiary. In this case, the securities company is not required to comply with points c, d, e mentioned above.

# Bao Viet Securities Joint Stock Company

NOTES TO THE FINANCIAL SAFETY RATIO REPORT (continued)  
as at 31 December 2025

## 3. SUMMARY OF SIGNIFICANT POLICIES FOR THE PREPARATION OF FINANCIAL SAFETY RATIO REPORT

### 3.1 *Liquid capital ratio*

Liquid capital ratio of the Company is determined using the formula specified in accordance with Circular 91, as amended and supplemented by Circular 102 as follows:

$$\text{Liquid Capital ratio} = \frac{\text{Liquid Capital} \times 100\%}{\text{Total exposures to risks}}$$

In which, total exposures to risks are the sum of exposures to market risk, settlement risk, and operational risk.

### 3.2 *Liquid capital*

In accordance with Circular 91, as amended and supplemented by Circular 102, the Company's liquid capital is the total equity that can be converted into cash within ninety (90) days, details as follows:

- ▶ Owners' equity, excluding redeemable preferred share (if any);
- ▶ Share premium, excluding redeemable preferred share (if any);
- ▶ Conversion option of convertible bonds – Equity component (applicable to securities companies that are convertible bond issuers);
- ▶ Other owners' equity;
- ▶ Differences from revaluation of assets at fair value;
- ▶ Foreign exchange rate differences;
- ▶ Charter capital supplementary reserves;
- ▶ Financial and operational risk reserves;
- ▶ Other reserves belonging to owner's equity in accordance with prevailing regulations;
- ▶ Realized undistributed after-tax profit;
- ▶ Balance of provision for impairment of assets;
- ▶ Fifty percent (50%) in the increase of fixed assets' value in accordance with prevailing regulations (in case of positive revaluation), or 100% of the total decreased value (in case of negative revaluation);
- ▶ Decreases to liquid capital (*Note 3.2.1*);
- ▶ Increases to liquid capital (*Note 3.2.2*); and
- ▶ Other capital (if any).

# Bao Viet Securities Joint Stock Company

NOTES TO THE FINANCIAL SAFETY RATIO REPORT (continued)  
as at 31 December 2025

## 3. SUMMARY OF SIGNIFICANT POLICIES FOR THE PREPARATION OF FINANCIAL SAFETY RATIO REPORT (continued)

### 3.2 *Liquid capital* (continued)

#### 3.2.1 *Decreases to liquid capital*

The Company's liquid capital is decreased due to the following items:

- ▶ Treasury shares (if any);
- ▶ Total decrease in value of financial assets recognised at cost equivalent to the difference between market value and carrying value of the assets, excluding the securities issued by the Company's related parties as well as the securities restricted to transfer with the remaining restriction period of more than ninety (90) days as from the date of financial safety ratio report;
- ▶ The escrow value, in case the Company places collateral assets to the banks for banks' guarantee upon the Company's issuance of covered warrants, is determined as the minimal value of the following: the value of banks' guarantee and the value of collateral assets (equivalent to volume of assets \* asset price \* (1 – Market risk coefficient));
- ▶ The value of assets used to secure obligations of the securities-trading organization and other organizations and individuals with a remaining term of more than 90 days. (determined by volume of assets \* asset price \* (1 – Market risk coefficient)). Where the collateral is used for multiple obligations of the securities-trading organization, the deduction shall be calculated proportionately for each obligation of the securities-trading organization (Remaining value of the obligation/collateral).
- ▶ Short-term assets including prepayments, receivables and advances, for which the remaining recovery period or settlement period is more than ninety (90) days, and other short-term assets;
- ▶ Long-term assets;
- ▶ The qualified, adverse or disclaimed items on the audited and reviewed financial statements (if any);
- ▶ Securities issued by the Company's related parties in the following cases:
  - The parent company, subsidiaries of the Company;
  - Subsidiaries of the Company's parent company.
- ▶ Securities restricted to transfer with the remaining restricted period of more than 90 days as from the calculation date;
- ▶ Irrecoverable items from other counterparties that are assessed as completely insolvent, are determined at the contract value.

When determining the decreased value to liquid capital, the Company adjusts to reduce the decreasing value as follows:

- ▶ For the asset used for securing the obligation of the securities-trading organization the decreased value shall be deducted by the minimal value of the following: market value of these assets, book value and remaining value of the obligation;
- ▶ For assets secured by assets belonging to other organizations or individuals, the decreased value shall be deducted by the minimal value of the following: value of the collaterals, book value.

Accordingly, the value of the collateral used in calculating the deduction from the decreases to liquid capital is determined as: Quantity of the asset \* Asset price \* (1 – Market risk coefficient) in accordance with Circular 91 as amended and supplemented by Circular 102.

# Bao Viet Securities Joint Stock Company

NOTES TO THE FINANCIAL SAFETY RATIO REPORT (continued)  
as at 31 December 2025

## 3. SUMMARY OF SIGNIFICANT POLICIES FOR THE PREPARATION OF FINANCIAL SAFETY RATIO REPORT (continued)

### 3.2 *Liquid capital* (continued)

#### 3.2.1 *Decreases to liquid capital* (continued)

The decrease to liquid capital of the items in current and non-current assets does not include the following items:

- ▶ Assets exposed to market risk in accordance with Circular 91, as amended and supplemented by Circular 102, except for securities issued by a subsidiary, parent company or subsidiary of the Company's parent company or securities restricted to transfer with the remaining restriction period of more than ninety (90) days as from the date of calculation;
- ▶ Contracts and transactions exposed to liquidity risk in accordance with Circular 91, as amended and supplemented by Circular 102;
- ▶ Provisions for impairment of assets;
- ▶ Provision for bad debts.

The Company does not calculate exposures to risk for items deducted from the liquid capital.

#### 3.2.2 *Increases to liquid capital*

The Company's liquid capital is increased due to the following items:

- ▶ Total increase in value of financial assets recognized at cost equivalent to the difference between market value and carrying value of the assets, excluding the securities issued by the Company's related parties as well as the securities restricted to transfer with the remaining restriction period of more than ninety (90) days as from the date of financial safety ratio report; and
- ▶ Debts that are convertible to equity, including: convertible bonds, redeemable preference shares and other debt instruments registered to supplement liquid capital with the State Securities Commission ("SSC") and satisfied all conditions stated in Clause 2, Article 7 of Circular 91, as amended and supplemented by Article 4 of Circular 102.

The maximum value of total debt items used to increase liquid capital is 50% of the Company's owners' equity. Regarding convertible debts and debts registered to supplement the Company's liquid capital with the SSC, the Company deducts 20% of their original value each year during the last five (05) years prior to maturity/conversion into common shares and deducts 25% of residual value quarterly during the last four (04) quarters prior to maturity/conversion into common shares.

### 3.3 *Exposures to market risk*

Exposures to market risk are the potential losses that may occur when the market value of assets that the Company possesses or is expected to possess under an underwriting issuance commitment fluctuates in a negative trend. Exposures to market risk for such assets as stated in Clause 2, Article 9 of Circular 91, including: cash and cash equivalents, monetary market instruments, bonds, shares, funds/shares of securities investment companies are determined by the Company at the end of the transaction day using the following formula:

Exposures to market risk = Net position x Asset value x Market risk coefficient

In particular, the net position is the net volume of securities held by the Company at the reporting date, after being deducted by the number of securities lent and increased by the number of securities borrowed in accordance with prevailing regulations.

# Bao Viet Securities Joint Stock Company

NOTES TO THE FINANCIAL SAFETY RATIO REPORT (continued)  
as at 31 December 2025

## 3. SUMMARY OF SIGNIFICANT POLICIES FOR THE PREPARATION OF FINANCIAL SAFETY RATIO REPORT (continued)

### 3.3 Exposures to market risk (continued)

Exposures to market risk of securities not yet fully distributed from underwriting contracts in the form of a firm commitment, covered warrants issued by the Company and future contracts are determined using the formula presented in Note 3.3.2.

Assets that are excluded when determining exposures to market risk include:

- ▶ Treasury shares;
- ▶ Securities issued by related parties of the Company in the following cases:
  - The parent company, subsidiaries of the Company;
  - Subsidiaries of the Company's parent company.
- ▶ Securities restricted to transfer with the remaining restricted period of more than ninety (90) days as from the calculation date;
- ▶ Bonds, debt instruments and valuable papers in the monetary market that have matured;
- ▶ Securities that have been hedged by sell warrants or futures contracts; sell warrants and put options that have been used to hedge for underlying securities.

#### 3.3.1 Market risk coefficient

Market risk coefficient is determined for each account of assets as specified in Appendix I of Circular 102.

#### 3.3.2 Asset price

##### a. Cash and cash equivalents, monetary market instruments

Value of cash in VND is the cash balance at the calculation date. Value of cash in foreign currencies is the equivalent in VND using the exchange rate published by credit institutions that are allowed to conduct foreign currency trading at the calculation date.

Value of term deposits at banks, cash equivalent and money market instruments is the amount deposited or acquisition cost plus accrued interest using the effective interest rate as at the calculation date.

##### b. Bonds

Value of listed bonds is the average price on the most recent trading day plus accrued interest from the most recent coupon payment date to the trading date (if the average price does not include accrued interest). If the bond has no transaction for more than 15 days before the valuation date, or is delisted, its value shall be the highest among the following: price of the nearest valuation period but not exceeding 90 days before the valuation date plus accrued interest, purchase price plus accrued interest, par value plus accrued interest, value determined under the internal regulations of the securities-trading organization, including accrued interest.

Value of unlisted bonds is the average price of the bond quoted on the trading system of the Stock Exchange on the most recent trading day plus accrued interest from the most recent coupon payment date to the trading date (if the average price does not include accrued interest). If the bond is not traded on the centralized trading system of the Stock Exchange, or has no transaction for more than 15 days before the valuation date, or is deregistered from trading, its value shall be the highest among the following: price of the nearest valuation period but not exceeding 90 days before the valuation date plus accrued interest; purchase price plus accrued interest; par value plus accrued interest; value determined under the internal regulations of the securities-trading organization, including accrued interest.

# Bao Viet Securities Joint Stock Company

NOTES TO THE FINANCIAL SAFETY RATIO REPORT (continued)  
as at 31 December 2025

## 3. SUMMARY OF SIGNIFICANT POLICIES FOR THE PREPARATION OF FINANCIAL SAFETY RATIO REPORT (continued)

### 3.3 Exposures to market risk (continued)

#### 3.3.2 Asset price (continued)

##### e. Futures contracts

Exposures to market risk of futures contracts are determined by the following formula:

Exposures to market risk = Max {((Settled price at the end of the day – Securities purchasing value) x Market risk coefficient of futures contract - Margin value), 0}

In which:

- ▶ Settled price at the end of the day = Closing price x Open volume.
- ▶ Securities purchasing value is the value of underlying securities purchased by securities-trading organization to cover future contractual obligations.
- ▶ Margin value is the value of assets that securities-trading organization deposits for investment, proprietary trading and market-making transactions.

#### 3.3.3 Supplemental exposures to market risk

Exposures to market risk of assets are increasingly adjusted in case the Company over-invests in these assets, except for the securities under firm commitment issuance underwriting contract, Government bonds and bonds guaranteed by the Government. The exposures to market risk are adjusted in accordance with the following principles:

- ▶ An increase of 10% if the total value of investment in securities and capital contributions of a securities issuer account for more than 10% to 15% of the owners' equity of the Company;
- ▶ An increase of 20% if the total value of investment in securities and capital contributions of a securities issuer account for more than 15% to 25% of the owners' equity of the Company;
- ▶ An increase of 30% if the total value of investment in securities and capital contributions of a securities issuer account for more than 25% of the owners' equity of the Company.

Dividends, coupons, preference rights of shares (if any) or interest of deposits, cash equivalents, negotiable instruments and valuable papers shall be added to the value of assets for the purpose of determining the exposures to market risk.

### 3.4 Exposures to settlement risk

Exposures to settlement risk are the potential losses that may occur when a counterparty fails to fulfil its settlement obligation or transfer assets on time as committed. Exposures to settlement risk are determined at the transaction date as follows:

- ▶ For term deposits at credit institutions; certificates of deposit issued by credit institutions; securities borrowing contracts in accordance with legal regulations; repurchase agreements and reversed repurchase agreements in accordance with prevailing regulations; margin loan contracts in accordance with prevailing regulations; receivables from customers in securities trading activities; receivables from matured bonds, valuable papers, mature debt instruments that have not yet been paid; other receivables, contracts, transactions and capital usages exposed to settlement risk; exposures to settlement risk before the date of securities transfer, cash settlement, contract liquidation shall be determined using the following formula:

Exposures to settlement risk = Value of assets exposed to settlement risk x Settlement risk coefficient of partner

# Bao Viet Securities Joint Stock Company

NOTES TO THE FINANCIAL SAFETY RATIO REPORT (continued)  
as at 31 December 2025

## 3. SUMMARY OF SIGNIFICANT POLICIES FOR THE PREPARATION OF FINANCIAL SAFETY RATIO REPORT (continued)

### 3.4 Exposures to settlement risk (continued)

- ▶ For underwriting contracts in the form of firm commitment signed with other organizations in a syndicated underwriting contract in which the Company is the lead underwriter, the exposures to settlement risk value equals 30% of the remaining value of unpaid underwriting contracts.
- ▶ For receivables from matured bonds, valuable papers, matured debt instruments for which payment has not been made, assets overdue for transferred, securities not transferred on schedule on time including securities and proceeds yet to be received from term deposits at credit institutions; certificates of deposit issued by credit institutions; securities borrowing or loan contracts in accordance with prevailing regulations; repurchase and reverse repurchase agreements in accordance with prevailing regulations; margin loans in accordance with prevailing regulations; receivables arising from securities business activities in accordance with legal regulations, the exposures to settlement risk is determined as follows:

Exposures to settlement risk = Settlement risk coefficient of time x Value of assets exposed to settlement risk

- ▶ For other contracts, transactions, and capital utilization; securities repurchase and resale agreements of securities or similar arrangements not covered above; and receivables from debt trading transactions with counterparties other than the Vietnam Asset Management Company (VAMC) and the Vietnam Debt and Asset Trading Corporation (DATC), the settlement risk value for other cases shall be determined as follows:
  - Deposit agreements or agreements for purchasing real estate, and economic agreements of a similar nature: Settlement risk value = Deposit amount × 150%;
  - Loans or receivables from customers: Settlement risk value = Loan or receivable amount × 150%
  - Other contracts or transactions: Settlement risk value = Total value of assets potentially exposed to settlement risk × 100%;

NOTES TO THE FINANCIAL SAFETY RATIO REPORT (continued)  
as at 31 December 2025

## 3. SUMMARY OF SIGNIFICANT POLICIES FOR THE PREPARATION OF FINANCIAL SAFETY RATIO REPORT (continued)

### 3.4 Exposures to settlement risk (continued)

- ▶ For advances whose remaining repayment term of under ninety (90) days (excluding extended advances; extended cases shall be eligible for deductions from eligible capital, the settlement risk value shall be determined as follows:

Assets potentially exposed to settlement risk		Risk factor	Settlement risk value
Total advances	accounting for 0% to 2% of equity as of the calculation date	8%	Settlement risk value = Assets potentially exposed to settlement risk × Risk factor
	accounting for more than 2% to under 5% of equity as of the calculation date	50%	
	accounting for 5% or more of equity as of calculation date	100%	

#### 3.4.1 Settlement risk coefficient

Settlement risk coefficient is determined based on the type of counterparties and the period as specified in Appendix III of Circular 91.

#### 3.4.2 Value of assets exposed to settlement risk

- Securities borrowing, securities lending, margin lending, repurchase agreements of customers or of the Company*

Value of assets exposed to settlement risk is the market value of the contract determined as follows:

No.	Type of transaction	Value of assets exposed to settlement risk
1.	Term deposits, certificates of deposit, unsecured loans; contracts, transactions, capital usage according to Point k, Clause 1, Article 10 of Circular 91, as amended and supplemented by Clause 1, Article 7 of Circular 102	Total balance of deposit account, certificate of deposit, loan value, contract value, transaction value plus dividends, bond interests, preference value (for securities) or deposit interests, loan interests, other surcharges (for credit).
2.	Securities lending	$\text{Max}\{(\text{Market value of the contract} - \text{Collateral value (if any)}), 0\}$
3.	Securities borrowing	$\text{Max}\{(\text{Collateral value} - \text{Market value of the contract}), 0\}$
4.	Reverse repurchase agreements	$\text{Max}\{(\text{Contract value based on purchase price} - \text{Market value of the contract} \times (1 - \text{Market risk coefficient})), 0\}$
5.	Repurchase agreements	$\text{Max}\{(\text{Market value of the contract} \times (1 - \text{Market risk coefficient}) - \text{Contract value based on selling price}), 0\}$
6.	Margin contracts (loans to customers to purchase securities)/Other economic agreements with a similar nature	$\text{Max}\{(\text{Margin balance} - \text{Collateral value}), 0\}$

## 3. SUMMARY OF SIGNIFICANT POLICIES FOR THE PREPARATION OF FINANCIAL SAFETY RATIO REPORT (continued)

### 3.4 Exposures to settlement risk (continued)

#### 3.4.2 Value of assets exposed to settlement risk (continued)

##### a. Securities borrowing, securities lending, margin lending, repurchase agreements of customers or of the Company (continued)

The outstanding balance includes loan principal, interest, and fees.

Customers' collateral value is determined in line with Note 3.4.3. In case the value of collateral does not have any reference in the market, its value is determined by the internal methods of the Company.

Asset price is determined in accordance with Note 3.3.2.

##### b. Securities trading

Value of assets exposed to settlement risk in securities trading is as the following standard:

No.	Period	Value of assets exposed to settlement risk
A – For the selling transactions (the seller is the Company or its customers under the securities brokerage activities)		
1.	Before the settlement date	0
2.	After the settlement date	Market value of the contract (if market value is less than trading value)
		0 (if market value is greater than trading value)
B – For the buying transactions (the buyer is the Company or the Company's customer)		
1.	Before the securities transfer date	0
2.	After the securities transfer date	Market value of the contract (if market value is less than trading value)
		0 (if market value is greater than trading value)

Settlement/transfer period of securities is T+2 (for listed securities), T+1 (for listed bonds); T+n (for transactions outside the official trading system within n days under agreement of both parties), or in accordance with prevailing regulations (for derivatives).

##### c. Receivables, matured bonds, matured debt instruments

Value of assets exposed to settlement risk is the value of receivables calculated based on par value, plus unsettled accrued interest, related costs, and less cash received previously (if any).

# Bao Viet Securities Joint Stock Company

NOTES TO THE FINANCIAL SAFETY RATIO REPORT (continued)  
as at 31 December 2025

## 3. SUMMARY OF SIGNIFICANT POLICIES FOR THE PREPARATION OF FINANCIAL SAFETY RATIO REPORT (continued)

### 3.4 Exposures to settlement risk (continued)

#### 3.4.3 Decreases to the value of collaterals

The company shall deduct from the value of collateral assets of counterparties or customers, excluding transactions and contracts specified in Point k Clause 1 and Point b Clause 10 Article 10 of Circular 91, as amended and supplemented by Clause 1 and Clause 2 Article 7 of Circular 102, when determining the value of assets giving potentially exposed to settlement risk, provided that such contracts or transactions fully satisfy the following conditions:

- ▶ Counterparties or customers provide collaterals to secure their fulfilment of their obligations, and such collaterals includes cash, cash equivalents, valuable papers, negotiable instruments on the money market, listed securities, securities registered on the Vietnam Securities Stock Exchange and its subsidiaries, Government bonds, and bonds guaranteed by the Ministry of Finance;
- ▶ The Company has the right to dispose of, manage, use, and transfer collateral if counterparties fail to make payment fully and timely as agreed in the contracts.

Value of the asset subjected to deduction is determined as follows:

Collateral value = Quantity of assets x Asset price x (1 - Market risk coefficient)

Asset price is determined in accordance with Note 3.3.2.

#### 3.4.4 Supplemental exposures to settlement risk

Exposures to settlement risk are increasingly adjusted in the following cases:

- ▶ An increase of 10% if the value of deposits contracts, certificates of deposits, loans, undue receivables, repurchase agreements, reverse repurchase agreements, the total value of loans to an organization, an individual and a group of related organizations/ individuals (if any) account for more than 10% to 15% of the owners' equity of the Company;
- ▶ An increase of 20% if the value of deposits contracts, certificates of deposits, loans, undue receivables, repurchase agreements, reverse repurchase agreements, the total value of loans to an organization, an individual and a group of related organizations/ individuals (if any) account for more than 15% to 25% of the owners' equity of the Company;
- ▶ An increase of 30% if the value of deposit contracts, certificates of deposits, loans, undue receivables, repurchase agreements, reverse repurchase agreements, the total value of loans to an organization, an individual and a group of related organizations/ individuals (if any), or an individual and related parties of that individual (if any), account for more than 25% of the owners' equity of the Company.

#### 3.4.5 Net bilateral clearing value of assets exposed to settlement risk

Value of assets exposed to settlement risk is subject to net bilateral clearing in cases:

- ▶ Settlement risk relating to the same partner;
- ▶ Settlement risk occurred in the same type of transaction;
- ▶ The net bilateral clearing is agreed in advance via documents.

# Bao Viet Securities Joint Stock Company

NOTES TO THE FINANCIAL SAFETY RATIO REPORT (continued)  
as at 31 December 2025

## 3. SUMMARY OF SIGNIFICANT POLICIES FOR THE PREPARATION OF FINANCIAL SAFETY RATIO REPORT (continued)

### 3.5 *Exposures to operational risk*

Exposures to operational risk are the potential losses which may occur due to technical errors, system errors and business processes, human errors during performing their work, or due to the lack of capital resulting from expenses, losses arising from investment activities, or other objective reasons.

Exposure to the operational risk of the Company is determined at the higher of 25% of the Company's operating expenses within twelve (12) consecutive months up to the reporting date or 20% of the minimum charter capital for business operations of securities companies in accordance with prevailing regulations, whichever is higher.

The Company's operating expenses are determined from total expenses incurred during the year less: depreciation expense; reverse/provision expense for the impairment of short-term, long-term financial asset and mortgage assets; provision expense/reversal of the impairment of receivable; provision expense/reversal of the impairment of other short-term asset; and loss from revaluation of financial assets at fair value through profit and loss ("FVTPL"), interest expense, revaluation losses on outstanding covered warrants payable, unrealized foreign exchange gain/loss; financial expenses and other non-cash expenses in the Company's business activities.
